

YESTERDAY AT HELENA

The House Adjourns on Receiving News of Blaine's Death.

NO NEW DEVELOPMENTS

Bonner of Deer Lodge Makes an Eloquent Speech Against Indiscriminate Immigration.

Special Dispatch to the Standard.

HELENA, Jan. 27.—The usual joint ballot was taken today with the usual result, there being no changes in the figures except those caused by pairs. Most of the legislators who go home to spend Sunday have concluded to abandon the trip this week, owing to the storm and the consequent uncertainty of getting back by Monday noon.

The Senate's Session.

The time of the senate today was principally consumed in routine business.

The committee on elections and privileges reported back Monteth's bill, which passed the house, for the regulation of primary elections, with the recommendation that it do not pass. The bill contains no provision prohibiting the followers of one party from participating in the primaries of another and the committee could not see how the bill, if it became a law, would improve matters in the slightest. The committee, which is composed of three democrats, Steele, McDermott and Eggleston, and two republicans, Brown and Swift, was unanimous in its conclusions. The report will be taken up in the senate tomorrow morning.

House joint memorial number 2, praying for the passage of a free coinage act, was passed unanimously, as was also the bill establishing a state board of education, and the bill regulating the practice of dentistry.

Cardwell gave notice that he would introduce a bill locating the state insane asylum at Boulder.

Hoffman, chairman of the committee on public buildings, to which was referred senate bill 18, reported the same back with amendments and recommended its passage. He also reported senate bill 23 back with the recommendation that it do pass. These bills went on general file.

The Representatives.

In committee of the whole the house took up the bill appropriating \$75,000 for Montana's exhibit at the world's fair.

The report of the committee on appropriations and claims, to which the bill was referred, was read. It recommended that the original bill do not pass, and offered a substitute appropriating \$50,000.

Bray of Silver Bow wanted the report of the committee rejected. He thought that \$75,000 was little enough to make a creditable showing. Fleming objected to an appropriation of \$75,000 and took occasion to criticize the Montana building and its builders. Monteth said there was not \$75,000 in the treasury for this or any other purpose. The committee was asked why it had cut the printing estimate from \$30,000 to \$5,000, and the answer was: "That the managers had intended to have books printed showing the resources of the state, but that, as the authorities at the world's fair had prohibited the distribution of pamphlets on the grounds, such pamphlets could be dispensed with." There was much said in opposition to this reduction in the printing estimate, it being agreed that books and pamphlets advertising the state were of prime importance. The house seemed to be about equally divided between a \$75,000 and a \$50,000 appropriation. The subject will be resumed tomorrow morning.

In committee of the whole, the house renewed its consideration of the bill to create a bureau of labor, agriculture and industry. Van Cleave's amendment, relative to the opening of correspondence between the commissioner and bureaus of immigration in Europe, was the occasion of the most brilliant speech made in the house so far this session. It was made by Bonner of Deer Lodge, who moved to amend the amendment by striking out that part relating to correspondence with Europeans and advertising in European journals. It was not a known nothing speech by any means, but was American to the core. Bonner did not want Montana a camping ground for the riff raff and scum of Europe. Bray moved that when the committee rise the bill be reported back with recommendation that as originally amended it do pass. Carried.

The Flathead county bill was read a third time and passed.

In the house today notices of the introduction of bills were given as follows: By Burrell—For the better protection of the revenue.

By Truman—To amend section 1868 of

chapter 103, fifth division of the revised statutes.

By Lockhart—To establish a hospital for the insane and providing for the location of the same. The said bill being a substitute for house bill 27.

By Monteth, for the committee on education—An act concerning the duties of school trustees.

By A. F. Bray—To prescribe the mode of payment of all obligations of debt to be paid in money; also, providing for the submission to the qualified electors of the state of an amendment to section 4, article 6, of the constitution relating to the election of senators.

Sappington, chairman of the committee on agriculture and stock growing, to which was referred house bill 39, reported the same back with amendments, and recommended its passage as amended. The report was referred to general orders.

Dudley, chairman of the committee on game and fish, to which was referred house bill 46, reported the same back, recommending its passage. This report was referred to general orders.

The bills of which notices were given yesterday were introduced. The house adjourned out of respect to the memory of Blaine.

A MINING CASE ENDED.

A New Opinion Hand-d Down by the California Court.

SAN FRANCISCO, Jan. 27.—The supreme court has rendered a decision in the case of the Waterville Mining company, owner of the Black Eagle mine, versus the owners of the Big Comet mine. The owners of the Big Comet followed the vein of the Black Eagle and the latter corporation began suit in ejectment. The lower court decided in favor of the defendant, basing the finding on four decisions of the supreme court of Colorado and one by United States District Judge Hallet of that state, who construed section 2336 of the revised statutes to apply to the crossing of veins on the strike. The case was appealed and the appellants pointed to the fact that section 2322, which applies to transverse veins, is directly opposed to the theory of the Colorado courts, and was virtually repealed by those decisions. The supreme court took a similar view of the case and reversed the judgment of the lower court. The decision is regarded by mining men as of highest importance, overturning the construction of mining law which has prevailed since 1879.

SAFE HOME.

Bennie Lovell, the Bozeman Runaway, Returned to His Mother.

Special Dispatch to the Standard.

BOZEMAN, Mont., Jan. 27.—Sheriff Caldwell left for Deer Lodge this morning with John White, George Wilson and James W. Hudson. White and Wilson are convicted of burglary, having broken into Fisher's grocery store last August, and Hudson, of forgery. Each was sentenced to one year in the penitentiary. Bennie Lovell, the boy who was enticed away from his home in this city over a year ago and who was discovered by the police in Spokane a week ago, arrived home on last night's train, having been sent by the commissioners of Spokane county in response to a telegram from the boy's mother, Mrs. Sarah R. Lovell. He says he has had enough newspaper mention and refuses to give any of his experience in roughing it in the wild West.

CHINAMEN MUST GO.

Resolutions Adopted by the Citizens' Committee.

At a citizens' meeting held in Anaconda on Monday, January 9, the following preamble and resolutions were adopted:

Whereas, There is in our midst a large number of Chinese engaged in various occupations in our city, and

Whereas, Said Chinese are not citizens of this country, and cannot become such; that they are of a race which cannot mingle or be assimilated with the people of this country, and

Whereas, They are engaged in various occupations to the injury of the laboring men and women of this place, and their earnings are accumulated and used for the benefit of other people, and

Whereas, The only reason they have for remaining here is for the accumulation of money to make their way out of the country, and

Resolved, That each and every one of our citizens of Anaconda be requested to withhold his patronage, of every kind and nature, from them, and be it further

Resolved, That these resolutions be published in the Anaconda Standard for a period of thirty days.

THRIFTY GREAT FALLS.

A City of Enterprise and Accomplishments.

1892 has been a prosperous year for the Cataract City. The enlivening experiences of the past year have given impetus to new and important projects, and the working out of these projects means employment for an army of working men, a big pay roll, ready sale for all classes of merchandise and a steady demand for town lots. Because this is the place for a permanent home for the working man.

The construction of the Schmitt-Trimburn Brewing company plant, the Washburn-Crosby Milling company flouring mill and elevator, and the enlargement of the Boston & Montana Smelting and Refining works has necessitated the building of a third power house. Accordingly the Townsite company will have an additional power of 5,000 horse power ready for business on or before May 1, 1893.

A city showing such points is a safe place to make an investment; town lots are cheap and sold on easy terms. Now is the time to make an investment. Write Great Falls Water Power & Townsite company for particular information.

IMPORTANT NOTICE.

Relative to Immigration from European Points.

Persons intending to send to Europe for their friends or members of their families will do well to call on us at once and arrange for their tickets, as we can save them time and money.

It appears evident that the present Congress will pass some very stringent measures to restrict immigration, and possibly emigration may be entirely prohibited for one year longer. Even if emigration is not directly prohibited, such rules and regulations may be adopted and enforced as will make it practically impossible for emigrants to land, and husbands and fathers already located in this country may be unable to send for their wives and children unless they can furnish heavy money guarantees. Tickets should be arranged for at once or it may be too late to bring your friends to this country for at least a year, and possibly longer.
